

Detente Print-and-Play Quickstart

Use this checklist after printing the rulebook, cards, and resource bills.

Files included

- detente-rulebook.pdf - full rulebook
- detente-cards.pdf - country type cards and goal cards
- detente-resource-bills.pdf - printable resource bills
- detente-print-pack.zip - all files bundled together

Printing

- Print cards on cardstock if possible.
- Print resource bills on normal paper; print multiple copies if you want a larger bank.
- Cut along the light grey borders.
- Keep Goal cards face-down during setup. Country Type cards may be revealed according to your table rules.

Known missing component

The current rulebook mentions Policy cards, but does not define a complete policy card deck with costs and effects. This print pack therefore includes the components explicitly defined in the rulebook: Country Type cards, Goal cards, and resource bills. Add Policy cards later once their rules are finalized.
